Chennai, India

---

## PROFESSIONAL SUMMARY

- 4 years of experience in Java-based web application development.
- Strong expertise in Spring Boot, REST APIs, MySQL, JPA/Hibernate, JDBC Template, and Angular.
- Ability to quickly understand requirements and deliver reliable, scalable solutions.
- Hands-on experience in API development, backend modules, MIS reporting, and micro services.
- Background in Manual Testing and Helpdesk Support, providing a strong foundation in SDLC and client communication.

---

## TECHNICAL SKILLS

**Languages:** Java 17, Java 8
**Frameworks:** Spring Boot, Micro services, JPA/Hibernate
**Frontend:** Angular, Typescript
**Database:** MySQL
**Tools & IDEs:** STS, Eclipse, Visual Studio Code
**Version Control:** GitLab
**Servers:** Apache Tomcat 7/8
**other:** JDBC, JPA Specification, REST API development

---

## PROFESSIONAL EXPERIENCE

**Software Developer – OASYS Cybernetics Pvt. Ltd., Chennai**

**Mar 2022 – Present**

**Project: UPEXCISE (UP Excise – SCM System)**

**Technologies:** Java, Spring Boot, Micro services, Angular 13, MySQL
**IDE:** STS, VS Code

**Description:**
A large-scale **Integrated Supply Chain Management System (IESCMS)** for the UP Excise Department enabling real-time monitoring of production, distribution, licensing, permits, barcodes/QR tracking, warehouse operations, and retail PoS billing.

**Key Responsibilities:**

- Developed and maintained backend modules using **Spring Boot, JPA, and JDBC**.
- Implemented APIs for permits, passes, inventory, and payment reconciliation.
- Integrated modules with **Distillery, Brewery, Warehouse, Wholesale & Retail** systems.
- Worked on **Track & Trace**, barcode/QR scanning data processing, and reconciliation workflows.
- Performed requirement feasibility analysis and prepared technical implementation plans.
- Deployed applications on Apache Tomcat and assisted in debugging production issues.

---

**Project: MIS (Management Information System)**

**Aug 2022 – Apr 2023**
**Technologies:** Spring Boot, MySQL

**Responsibilities:**

- Created MIS reports and APIs for dashboards and analytics.
- Built backend logic for data extraction, summarization, and real-time reporting.
- Coordinated with business teams to gather reporting requirements.

---

**Manual Tester – HMIS Project**

**Feb 2020 – Mar 2022**

**Responsibilities:**

- Executed test cases for web and mobile applications.
- Performed **functional, regression, and UAT testing**.
- Raised detailed bug reports and worked closely with developers to resolve issues.
- Ensured product stability and quality before deployment.

---

**Helpdesk Support – CARS24, OLX, TNPDS**

**Aug 2019 – Feb 2020**

**Responsibilities:**

- Handled customer queries via call and email with high satisfaction levels.
- Logged and tracked issues, escalating technical problems to IT teams.
- Prepared daily reports and documents.
- Built strong communication and problem-solving skills.

---

## EDUCATION

**B.E – Electronics and Communication Engineering (ECE)**
Anna University, Trichy — **2015–2019**

---

## ROLES & RESPONSIBILITIES

- Backend development & maintenance using **Spring Boot, JPA, Hibernate, JDBC**.
- API design, coding, and unit testing.
- Debugging and modifying existing modules.
- Application deployment and environment configuration.
- Requirement analysis and feasibility review.
